How can I request a change to my financial aid package?

What’s an appeal?

If you are a college student receiving federal financial aid to attend school, you can submit an appeal or a request to your school to adjust your financial aid package. A financial aid appeal or request is available to qualifying students at all types of institutions (Graduate, 4-year, 2-year and trade) offering federal financial aid.

Federal law allows your financial aid office to make changes to your financial aid package under certain circumstances. Each school has its own processes and requirements. If your financial aid office accepts an appeal or a request, your financial aid package may change in one of the following ways:

- **Your cost of attendance (COA) may go up**
- **Your expected family contribution (EFC) may go down**

It is also possible that neither of these changes will occur, but that the financial aid office may remind you of grant aid or federal loans that are available under your original financial aid package.

How to start my appeal

Eligibility, supporting documents, and letter templates vary by appeal type.

Check out the free guidance and templates at: https://formswift.com/swift-student

All of these templates are designed for students currently receiving or applying for federal financial aid. Even if your appeal is not accepted, your school’s financial aid officers may be able to direct you to other resources once they better understand your situation.
